

AUTO EQUIPMENT BUILT ON PERFORMANCE

Driving Innovation Since 1954

Seventy years ago, in 1954, brothers Erminio and Remo Corghi founded Corghi Elettromeccanica in Correggio (RE), Italy.

In the 1960s, Corghi revolutionised the industry with the invention of the Artiglio — the world's first rim-clamp tyre changer — setting a new standard in tyre service technology.

Today, Corghi remains at the forefront of innovation and is recognised globally as a leader in automotive repair equipment.

CORGI EXACT LINEAR PLUS 3D ALIGNER

The Wheel Aligner for Everyone
Simplicity Meets Top-Notch Performance
Premium Features at an entry-level price-delivering a great return.
