

Auto Pro-UP DBL-Star

Car & light Truck

Brake Disc & Drum Lathe

- Designed & manufactured in South Korea
- Disc & drum lathe
- LED lighting in safety cover
- Control panel for the adjustment & setting of arbor & machining speeds
- Automatic cut-off of machine once machining has finished
- In-built tool tray & heavy duty steel draws for tool storage
- Safety cover with built-in LED light
- Heavy duty cast construction for precision machining results
- Includes comprehensive adaptor kit for passenger vehicles
- Capable of machining all passenger vehicles and light commercial with appropriate accessory kits.
- Full range of accessories to handle virtually any application
- INCLUDES light truck adapter kit
- Optional Flywheel Adaptor

Specifications	
Max. Rotor Diameter	420 mm
Max. Rotor Thickness	50 mm
Drum Diameter	150 - 590 mm
Drum Depth	140 mm
Arbor Speed	0 - 120 rpm
Max. Rotor/Drum Weight	70 kg
Operating Voltage	240 Volt
Gross Weight	250 kg
